the next level«

# Industrial Batteries

## The powerful range of Network Power

GNB® Industrial Power offers reliable energy storage solutions for critical systems requiring uninterrupted power supply. With a comprehensive product range based on state-of-the-art technologies. GNB delivers the right battery for every application.

The below table is only indicative and depends on the specific customer application. For more information please ask a GNB sales representative.

Applications	Battery ranges																		
	Sonnenschein							Marathon		Sprinter		Absolyte	Powerfit	Classic

### Powerful product brands

**ABSOLYTE** **MARATHON** > VRLA batteries (Valve Regulated Lead Acid) in which the electrolyte is fixed in an Absorbent Glass Mat (AGM)

**Sprinter** **Powerfit** > Excellent high current capability

- > Very economical
- > Maintenance-free (no topping up)

**Sonnenschein** > VRLA batteries (Valve Regulated Lead Acid) in which the electrolyte is fixed in a gel (dryfit® technology)

- > Inventor of Gel technology
- > Highest reliability. even in non-optimal conditions
- > Particularly suitable for cyclic applications
- > Maintenance-free (no topping up)

**Classic** > Conventional lead-acid batteries with liquid electrolyte

- > Extreme reliability. proven over decades
- > Low maintenance

## Sonnenschein A400

### Unmatched, high reliability dryfit Gel technology

The Sonnenschein A400 range is a reference for energy storage, with proven reliability in many installations worldwide. The success of A400 batteries comes from the superior dryfit technology, available in a wide range of models to provide a solution for every power need.

#### Your benefits:

- > **dryfit Gel** – VRLA technology
- > **Lowest energy consumption** – saving costs
- > **Robust design** – resilient in harsh conditions
- > **Proof against deep discharge** – greater long-term energy delivery
- > **Completely recyclable** – low CO<sub>2</sub> footprint

#### Specifications:

- > Nominal capacity 5.50 - 180 Ah C<sub>10</sub>
- > Exceptional energy storage capacity combined with long life
- > Thick grid plates with high quality lead calcium alloy, for enhanced corrosion resistance and stability
- > Very low gassing due to the internal gas recombination
- > Classification according to EUROBAT 2015: “> 12 years – Very Long Life”
- > Shelf life up to 2 years at 20°C without recharge due to the very low self discharge rate
- > Designed in accordance with IEC 60896-21/-22
- > Trouble-free transport of operational blocks, no restrictions for rail, road, sea and air transportation (IATA, DGR, clause A67)
- > Approval: UL (Underwriter Laboratories)
- > Manufactured in Europe in our ISO 9001 certified production plants

Design life  
15 years for  
blocks ≥ 20 Ah  
12 years for  
blocks < 20 Ah

Maintenance  
free (no  
topping up)

## Carbon Boost

### Taking Gel batteries to the next level

The addition of carbon additives to the well-known Sonnenschein A400 range is a major step, taking Gel batteries to the next level. The unique formula reduces the total cost of ownership by extending the battery life to 15 years.

#### Benefits of Carbon Boost

- > **Enhanced battery life** – reduced total cost of ownership
- > **Less sulfation** – better utilization of the active material
- > **Faster recharge and improved charge acceptance** – Higher availability
- > **High energy efficiency** – saving costs and space

Lab tests show that the carbon additive leads to an increase of the design life by up to 3 years

Without Carbon Boost

The plates can get covered with sulfate

With Carbon Boost

Carbon Boost technology reduces sulfation

During discharge, non-conductive sulfate particles progressively cover the negative plates, isolating them from the electrolyte. This means a lot of the energy intended to recharge the battery is needed to dissolve the sulfate, which makes charging less efficient.

The high surface area carbon additives in Sonnenschein A400 Carbon Boost battery provide superior conductivity, dissolving the sulfate particles much faster.

## Battery Service – Energy Solutions

Keeping your business on the move

### GNB® is the Expert

Who could do this job better than the professionals of a company with more than 100 years of experience in battery development, production and application?

Leave the responsibility for the maintenance of your batteries and chargers to the professionals: a GNB service contract provides you with exceptional economic advantages through time savings, cost savings and safety!

### Installation of Batteries and Systems for Network Power

- > Development of complete turnkey solutions from the design concept to installation and commissioning.
- > Installation according to legal and safety regulations including CE certification by approved installation technicians.
- > Training and certification of external installation technicians according to CE regulations.

- ✦ Inspection Contract
- ✦ Maintenance Contract
- ✦ Lifetime Warranty Contract
- ✦ Full Service Contract

»GNB Service – individualized, professional and all over Europe!«

**Exide Technologies**, with operations in more than 80 countries, is one of the world's largest producers and recyclers of lead-acid batteries. Exide Technologies provides a comprehensive and customized range of stored electrical energy solutions. Based on over 120 years of experience in the development of innovative technologies, Exide Technologies is an esteemed partner of OEMs and serves the spare parts market for industrial and automotive applications.

**GNB Industrial Power** – A division of Exide Technologies – offers an extensive range of storage products and services, including solutions for telecommunication systems, railway applications, mining, photovoltaic (solar energy), uninterrupted power supply (UPS), electrical power generation and distribution, fork lifts and electric vehicles.

**Exide Technologies** takes pride in its commitment to a better environment. An integrated approach to manufacturing, distributing and recycling of lead-acid batteries has been developed to ensure a safe and responsible life cycle for all of its products.
